Answer/information shared

The general Health and Safety on the School Sit & Complete H&S Annual Questionnaire

Evidence provided to support answers/information shared

Walkabouts carried out with S Addison, discussions taking place at time of visit.

Key learning outcomes

Issues noted:

Flooring coming away from wall in male toilets.

Uneven slabs within playground area (painted chessboard) – potential trip hazard.

Concerns raised regarding contents within the roof space. Informed that Premises manager considering emptying in Easter holidays. Concerns regarding Lone working and the difficulty/ weight of removing goods safely.

Concerns regarding the general appearance along the front class rooms (externally)

Concerns regarding the coat 'pegs' within the school, pegs appear to be easily bent causing a potential hazard to children.

Next steps and additional questions

SA to feedback to the school site manager areas from the H & S visit

SA is exploring alternative options for the storage of coats/bags in the KS1 area.
